About the Life of

The Sidereal Astrologer – Robert Augustus Marriott II

The Sidereal Astrologer Robert Augustus Marriott II born at Los Angeles County Hospital on November 24, 1965 at 09:31:00 AM PST lived around the Los Angeles, CA area to just before 2 years of age before relocating to the Chicago, IL area.

During August of 1980 relocated to Colorado Springs, CO where it has remained the primary place of residing. Although, have been to some other locations for short (very short) duration, of under a half of a year, and often less than a few month's even. They include, Reno, NV - Las Vegas, NV - Elko, NV - Las Vegas, NV - Long Beach, CA - Palm Desert, CA - Palm Springs, CA - Fontana, CA - Mesa, AZ - Tucson, AZ - South Fork, CO and a longer duration with La Junta, CO that was part of helping my Mom after her Husband (step dad) passed away. Also, currently Fountain, CO physically while functioning and operating out of the Colorado Springs, CO and surrounding area.

Both my Step Dad passed away several year's ago, July 7, 2011 and Mother was November 23, 2018 at temporary visit to a hospice nursing care facility. Now for a temporary time I AM with my sister for providing each other relief during this time of forward direction. My real dad passed away during the time of Christmas Day 2019, and found out about it around the end of January 2020 leaving me to filter out that now.

I also was diagnosed with a stroke that paralyzed my entire right half, and that happened October 20, 2016 while doing mother's laundry at a laundry mat. Although, it was a real dramatic concern with mobility and talking at first an obstacle that was essentially overcome. I still have a slight balance issue, and additional thing's affecting the situation of a full recovery that has been underway since the stroke happened.

It has been a long process from my own standpoint, and figure that a complete recovery if ever is going to happen around summer to late 2020 or slightly longer.

Currently; December 13, 2024 still recovering from the stroke, and doing quite a bit better on the road of healing. Almost able to function like previous experience, and “do not” need to use the cane for balance of physical body. Have stumbled, and fell from not using the cane, except it has been very rare with the experiences encountered. My above-mentioned “2020” presumption was certainly off, and about 5¼ years later it has come close to what it was before the experience encountered on the path of life.

Did look at the stars (astrology of it), and 2025 is a major hurdle through healing up toward a full recovery. Yet, 2026-2029 is quite a bit better in several various ways.
